**#SocialMediaMarketing**

Kedar Patankar is one of those rare polymaths you can't box. He's a semiconductor engineer-turned-storyteller whose scripts have snagged acclaim — including a Filmfare win. He's written for mainstream India (think Scam 2003 – The Telgi Story) and proven he has chops both behind the tech bench and in front of the writer's pad.

#UnescoWorldHeritage

## A WORLD HERITAGE TAG IS NOT A TROPHY. IT'S A REMINDER!

When a site gets recognized as a UNESCO World Heritage Site, the headlines come fast. There's pride. Celebration. Social media lights up with posts and pictures.

But what happens after the applause fades?

We tend to think of World Heritage status as a reward — like winning an Oscar. But it's not a prize for the past. It's a commitment to the future.
